

THE FLEX MBA AT SAINT ROSE: THE ANY TIME, ANY WAY MBA

Earn a Saint Rose MBA on your own schedule, without sidelining your work, family, or community obligations. You attend class when and where you want: on campus, remotely, or online. Finish in as few as 11 months, or at your own pace.

Saint Rose is close-knit, agile, and known for being supportive of our students—a diverse group of people with vastly different schedules. That's why we've committed to providing our entire MBA program on our new flex platform.

How It Works

For your entire MBA, you attend any session of any class in the way that's most convenient for you:

- **On campus** – Learn in a traditional classroom setting
- **Remotely** – Interact with your professor and classmates via livestream from wherever you are
- **Online** – Watch the video of your class when your schedule allows

There's no need to register in any special way or tell us how you'll attend class for any session—just do what works for you.

The Saint Rose Flex MBA is:

A rigorous, competitive, 36-credit MBA, accredited by the Association of Collegiate Business Schools and Programs, that equips you with the analytic, strategic, communication, and leadership skills to rise through the ranks, launch your startup, or make a career pivot

An immersive, intense experience that brings you together with bright, collaborative classmates and expert, caring faculty who make a point of getting to know you personally

The perfect choice for working professionals, active military service members, people taking care of children or relatives, and traditional full-time students.

Trustco Bank

American National

Hear From Our Alumni:

“The MBA opens a lot of doors for you. You have exposure to a wide range of different topics that many other professionals don’t encounter, like game theory and cost accounting, which may not be directly related to your field, but are very helpful in understanding how the overall organization works.”

— Sheng Wu G’10, Systems Analyst, LinkedIn Talent Services

“Through my internship, I was able to connect with the community in a way that led me to what I wanted in my career and how and where my skills could help me make an impact. Through that internship, I got to open my consultancy business and got my first job.”

— Michaëlle Mugisha G’15, Community Impact Manager, United Way of the Greater Capital Region

“The program challenges you to acquire a deep understanding of all facets of managing a business. That was the boost I needed to progress into leadership roles. What I enjoyed most was the teamwork environment and the ability to build relationships – critical to the success of any business.”

— Keith Payet G’06, CEO, UnitedHealthcare Community Plan of Tennessee
